

DATAMAN BARCODE VERIFIERS

Barcode verification is the process of grading the quality of barcodes. Barcode verifiers capture images and generate reports to demonstrate compliance to parameters within industry standardization guidelines.

The DataMan 8070 series barcode verifier is packed with powerful lighting options, robust grading algorithms, a high-speed processing engine, and a high-resolution camera to grade the most difficult DPM codes. Combined with simple DataMan Setup Tool software, DataMan 8070 series verifiers deliver detailed, repeatable results.

ESD-SAFE BARCODE READERS

Electrostatic discharge (ESD), the sudden flow of static electricity between two objects, can damage electronic devices, spark explosions or fires in flammable environments, and cause data failures.

The following DataMan fixed-mount and handheld barcode readers are available with ESD-safe protective housing:

- DataMan 8050 Series
- DataMan 360 Series
- DataMan 150/260 Series
- DataMan 70 Series
- DataMan 50 Series
